Head Shot Information Guide

First Impression

It's been said, "You never have a second chance to make a good first impression". If your head shot is on your resume, web site, brochure, etc., chances are that's the first impression people will have of you. At Oliver Photography we help you make a great first impression.

Portrait Experience

If auditions are your thing then you need clean, crisp head shots that express your personality and reveal the star within – and you typically need them fast. That's where we can help you. First, we do not limit the number of photographs taken. Second, you view your photographs immediately on our giant 52" scene (WOW). Third, you select your favorite poses and watch with amazement as the retouching begins! But remember with a head shot we just remove the blemishes and stray hair - They want to know the real you. Finally, your finished head shot is delivered to you on a CD. The image can be used for all of your head shot needs! You need an 8x10 print with a fast turnaround? We can help you with that too.
